The background features a complex, glowing blue network of interconnected lines and dots against a dark blue gradient. A large, semi-transparent sphere is positioned in the lower right, with its surface composed of a dense web of lines and glowing blue nodes. Above the sphere, a stylized infinity symbol or a series of interconnected lines forms a loop, also containing glowing nodes. The overall effect is futuristic and represents concepts like blockchain, connectivity, and digital currency.

The screenshot shows the Mac App Store interface. At the top, there's a navigation bar with icons for Featured, Top Charts, Categories, Purchased, and Updates, along with a search bar. Below the navigation bar, the app page for "Calendar 2" is displayed. The app icon features a calendar with the number "1" and some colored dots. The app name "Calendar 2" is followed by a "4+" rating. A promotional text block says: "Access all your events, weather, google, facebook, birthdays, and more, in ONE place. Click! You will save time and be much more productive. Don't take our word for it, try it yourself! ..." Below this, a "What's New in Version 2.6.1" section lists: "Fixed bug preventing app from launching at startup. Added a new method to unlock all features....". To the right, there are links to "...More", "Qbix, Inc. Web Site", "Calendar 2 Support", and "Privacy Policy". Further down, there's a "Get" button and a note about "Offers In-App Purchases".

The screenshot shows a Mac desktop environment. In the foreground, a window titled "Thursday, November 15, 2012" displays a calendar view with various events listed. Behind it, another window shows a monthly calendar for November 2012. To the right, a sidebar provides information about the application: Category: Productivity, Updated: Mar 08, 2018, Version: 2.6.1, Price: Free, and a download link. Below this, a large lock icon is shown next to the text "CalendarFree is validly signed (Mac App Store)". On the left side of the desktop, there's a large image of a galaxy. At the bottom left, the ESET logo is visible with the tagline "ENJOY SAFER TECHNOLOGY".

The image shows a seized website for Bestmixer.io. The page features a large red banner with the text "THIS SERVICE HAS BEEN SEIZED". Below this, it states "by the Dutch Financial Criminal Investigation Service (FIOD) under the authority of the Dutch Prosecutor's Office". A note from Dutch Law Enforcement explains that they started an investigation in June 2018, collecting information about transactions, letters of guarantee, and support messages. The page also includes logos for the Openbaar Ministerie, FIOD, Europol, Politie, Police Luxembourg, and the FBI.

The image consists of two side-by-side screenshots of an Android mobile device. The left screenshot shows a browser window with the URL rcycllmnrhgntry.com. The page content reads:

YOUR DEVICE IS SHOWING SUSPICIOUS SURFING BEHAVIOUR.

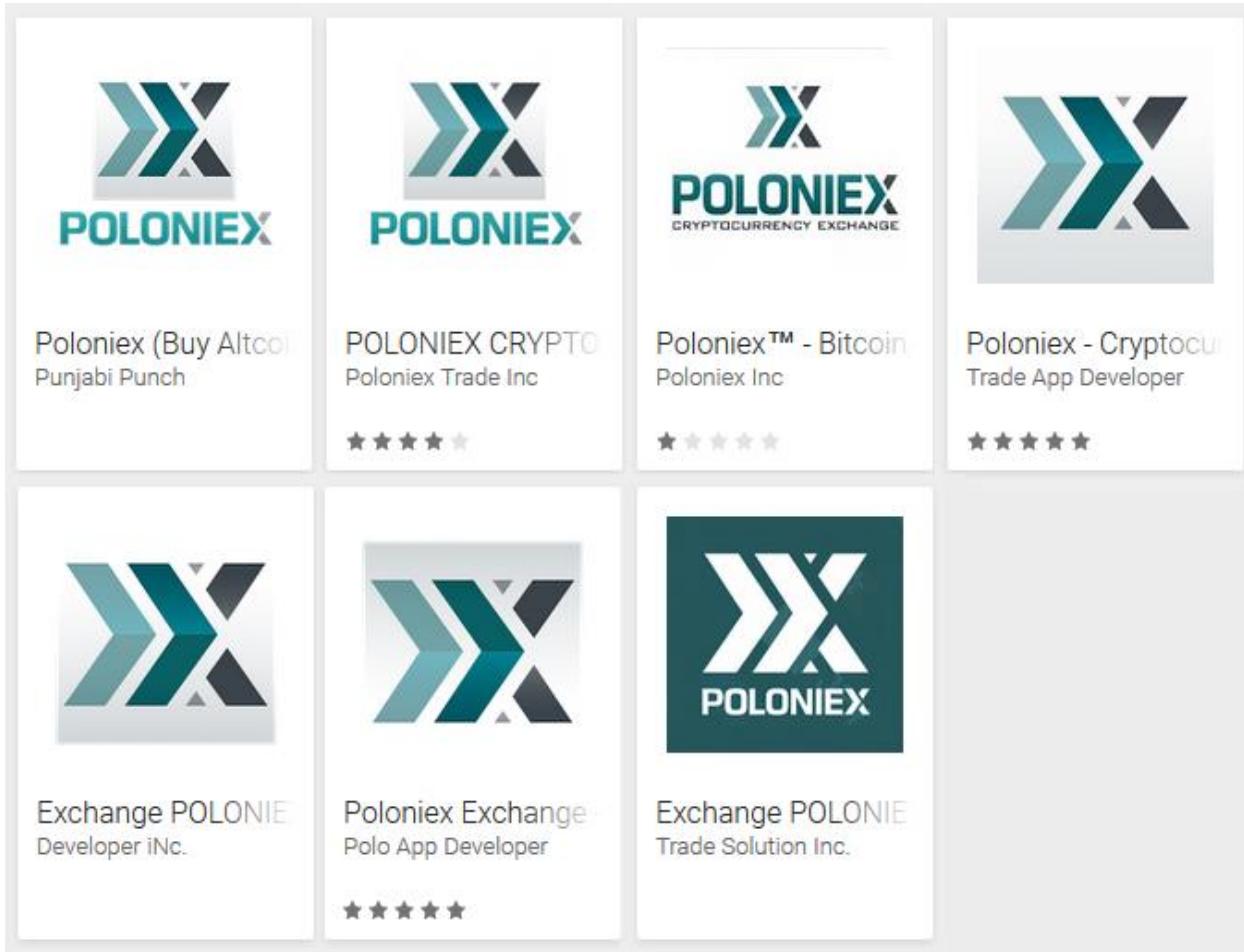

Please prove that you are human by solving the captcha.

Until you verify yourself as human, your browser will mine the Cryptocurrency Monero for us in order to recover server costs incurred by bot traffic.

A red CAPTCHA code "w3FaS05R" is displayed in a white box, with a blurred input field and a green "Continue" button below it.

The right screenshot shows the "Simple System Monitor" app. The title bar says "Simple System Monitor". Below it are three tabs: "CPU USAGE - CORES" (selected), "CPU USAGE - TOTAL", and "CPU FREQUENCIES". The main area is a line graph showing CPU usage over time, with the Y-axis ranging from 0% to 75%. The graph shows a sharp spike to approximately 96.52% usage followed by a fluctuating pattern around 75%. At the bottom of the graph, the text "96.52%" and "AVG FREQ: 1.19 GHz" are displayed.

Botnet Mirai

Código Fuente liberado

[FREE] World's Largest Net:Mirai Botnet, Client, Echo Loader, CNC source code release

Yesterday, 12:50 PM (This post was last modified: Yesterday 04:29 PM by Anna-senpai.)

Preface

Greetz everybody,

When I first go in DDoS industry, I wasn't planning on staying in it long. I made my money, there's lots of eyes looking at IOT now, so it
However, I know every skid and their mama, it's their wet dream to have something besides qbot.

So today, I have an amazing release for you. With Mirai, I usually pull max 380k bots from telnet alone. However, after the Kreb DDoS,
shutting down and cleaning up their act. Today, max pull is about 300k bots, and dropping.

So, I am your senpai, and I will treat you real nice, my hf-chan.

The diagram illustrates a network of connected devices. At the center is a Router icon. Surrounding it are various devices: a Router, a Win10 computer, an iPhone6, a Nexus 6 smartphone, a Server12 server, a Win7 computer, a MacbookP., an osxserver, an Xbox game controller, and a Fire HDX tablet. The devices are arranged in a circular pattern, with some having small dropdown arrows at the bottom right.
